

Peripheral Equipment for Dry Processing

Application:

Dosing, Conveying, Discharging etc.
of dry bulk material:

- ▶ Coarse material
- ▶ Granulat
- ▶ Powder
- ▶ Dust

Features:

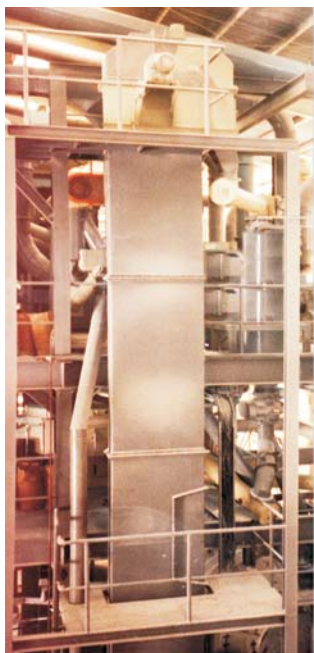

- ▶ Solid construction
- ▶ Low maintenance
- ▶ Long lifetime
- ▶ Specific construction
- ▶ Material of construction according to product and application

rotary valve

slide gate

bucket elevator

silo equipment

IVA Industrieberatung GmbH

Peripheral Equipment for Dry Processing

pneumatical knocker

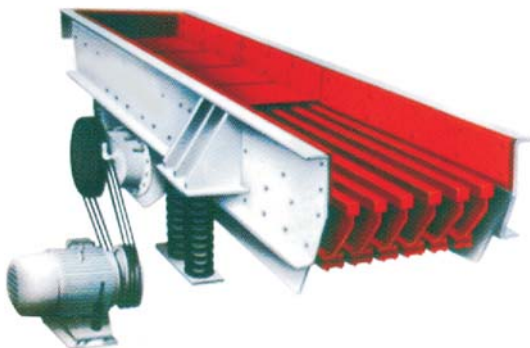

fluidisation

weighing belt

mixing and heating screw

vibrating feeder

truck loading device

conveying belts
